"I saw Julie speak a year ago and was so moved and impacted by her presentation that I knew she'd be perfect for inspiring my staff. So to do something special to show my teachers how much I appreciate their commitment and hard work during a long school year, I invited Julie to come speak to my team. She was terrific! Her message was fabulous and my teachers loved her! She is fun and inspirational and I know they were truly energized and motivated by her. I heard many of them say she was excellent and just what they needed. She challenged them to be more positive in their daily lives, confirmed for them how much they make a difference and encouraged them to stay passionate about their own lives. I know they took away many things they can apply to be more effective in both their personal and professional lives. She would be perfect for giving your staff a kick-start or for getting them re-inspired. I would highly recommend her!

~ Kristi Nelson, Principal, Valley Springs School District

"Julie Clark spoke at our AG-ceptional Women's conference in November. We had approximately 350 women of all ages. We were extremely happy! She was so easy to work with, and provided us with great materials to use for marketing publications and handouts. All communication with Julie before, during and after the conference has been professional and very satisfying. The participants raved about how Julie gave them just what they needed and I heard many individuals marveling at how her message was so powerful and relevant to their lives. Julie did the keynote address and also a breakout session. The evaluations for both were glowing! She spent the entire day with us and made several connections with our participants—they just loved her! I highly recommend Julie for your next workshop or event."

~ Corinne Morris, Associate Dean of Agriculture, Northeast Community College - Norfolk, Nebraska
